1	5804033	Engineering Drawing

Description of Installation

This kit provides the parts and instructions required to install the Winterization Kit. The parts include; 2 angles which mount on the lower cowl lip, partially restricting the exit air opening; 1 plate which mounts in front of the oil cooler, partially restricting the air flow; 2 placards, one which mounts on the instrument panel and one which mounts on the right hand engine baffle; and all attaching hardware.

Installation Instructions

Install all parts per the engineering drawing supplied with kit.
